## **THE CIVILIAN PERSONNEL MANAGEMENT PROGRAM**

- This briefing was prepared in Power Point 97. It may be briefed to your new commander as a personal computer presentation or by using hard copies of the slides.
- This is a generic, scripted briefing suggested to be a briefed to new Commanders as it is written. Placeholders for local organizational and installation issues are included as slides 5-7. In order to complete this briefing CPACs would construct those slides (or more if necessary) to reflect that information.
- You can view the entire PowerPoint briefing on-line. **However to see the notes that accompany the slides or to make any adjustments to the slides, you must download and save this PowerPoint file to your PC and then view or print it in “Notes Page” format.**
